THE ATLANTA CONSTITUTION.

BY W. A. HEMPHILL & CO. | ATLANTA, GEORGIA, THURSDAY, JUNE 23, 1870. | VOLUME III--NUMBER 3

Evening Edition.

ATLANTA, GEORGIA, JUNE 22.

A Scripture Lesson.

"The wicked flee when no man pursueth."

Illustration: Political debauchees who imagine the devil is after them.

☞ The Constitutional Convention of Vermont, the most intense Republican State in the Union, says the New York World, rejected the proposition to give the ballot to women by a vote of 231 to 1.

Standing Army of Thirty Thousand Men.

By a recent act of Congress, approved by the President, the standing army of the United States is to consist of 30,000 men. The expense of each man, per annum, is an average of $2,000—making an aggregate of $60,000,000, to sustain a standing army, unnecessarily large, in time of peace. As the South was subdued more than five years ago, it is supposed that the bayonets will be used as "forcible logic" against some of our Northwestern fellow-citizens, who do not like that 15th Amendment Enforcement Act.

The German Sængerfest.

Our Cincinnati exchanges teem with accounts of the great annual reunion of the Germans, known as the Sængerfest or Singing Festival, which closed on the 19th instant, with a picnic at which 30,000 people were present. Seven steamboats were engaged in transporting the people from the city to Short's Grove. The steamer Ben Franklin, in attempting to pass under the bridge, had her chimneys knocked down. No lives were lost, but the excitement consequent upon the accident was intense. Immense trains of cars of every description were also called into requisition, on the Indianapolis and Cincinnati Railroad, to carry the immense mass of humanity, bent on pleasure-seeking, to the grove.

The Germans are a merry people, and know how to enjoy themselves. When they work they work, and when they play they play in earnest.

Georgia News.

In the fire parade at Augusta, Clinch threw 234, and Georgia 230 feet 9 inches.

George Rhodes, of Walton county, has a cotton stalk forty-three inches high.

Bill Travis, a noted 15th Amendment at Forsyth, died last week.

Forsyth is to have a new Methodist Church.

The caterpillar has made its appearance in Dougherty county.

Dougherty Superior Court is in session.

Dr. R. T. Humes, of Sumter county, died on the 19th, of typhoid dysentery.

A 210 pound rock was found packed in a bale of cotton at Rome.

The walking car, in Savannah, carries five bales of cotton weighing two thousand five hundred pounds.

The 340 lb. turtle at Macon has been slaughtered, and found to contain 122 eggs in the shell, and 500 soft ones.

Heavy rains are falling in Southwest Georgia, and fears are entertained that the cotton crop will be injured.

Upson county is to have a new Primitive Baptist Church. (George Cook & Co. can supply them with *the* organ.)

Mr. J. J. Walker, of Spalding county, thrashed eight acres of wheat which averaged twenty-five bushels per acre.

Nora Johnson, a colored "female citizen," of Savannah, has been committed to jail for an assault upon a sister "female citizen."

The freight and passenger business on the Selma, Rome and Dalton Railroad continues to improve since its Northern connection was made at Dalton.

Charles Gorman tried to separate James Houlihan and John Kavanaugh while fighting at Thunderbolt, and received such a severe kick in the abdomen as to cause his death.

Patrick Long, of Macon, has 200 head of cabbages averaging from ten to sixteen pounds—one weighed twenty-five pounds. It is no trouble to find cabbage-heads in Macon!

All the hens in the country have been robbed of their young before the little ones are old enough to sleep by themselves, and are sold at prices that make a poor man lose all hope of ever having fried spring chicken.

John Myrick (15th amendment) has been arrested for increasing his revenue to the amount of $46 from the coffers of the Internal Revenue, and will aid Grant, Alexander & Co. before long in building railroads.

Albert Christian (15th amendment, claiming to be from Atlanta) and Henry Elliott (13th amendment) amused themselves in Macon the other day by using pocket knives upon one another. No deaths.

Rev. Dr. Will's congregation, by a large majority, on Sunday last, refused to accept his resignation as pastor of the First Presbyterian Church in Macon. He has accepted the appointment of President of Oglethorpe College, Atlanta, unconditionally. Atlanta will insist upon his *coming* here.

George D. Chapman, the contractor of the Port Royal Railroad, is reported to be missing, by the Augusta Constitutionalist. Divers attachments have been issued against his assets left behind, and altogether his financial status on 'change is particularly shaky.

The Baptist Church at Rome has been supplied with an organ manufactured in that city by the workmen of Messrs. Hills & Daily, superintended by Mr. Davis, a practiced organ-maker of the North. It has a powerful and rich tone, which is ascribed to the fact that its body is made from the Southern pine, which is much denser than the more porous pine of the North.

A Wonderful Microscopic Discovery.

Science is yet ceaselessly working on to results still more surprising. The last advance, which has just been made in this city, is a very large one. Until now the best microscope magnified an object not more than two hundred million times its actual size, and very few microscopists ever saw such power. The President of the Royal Society of England last summer showed a shell magnified one hundred and forty-four million times, and this excited the astonishment of microscopists throughout the world. But the new optical combination just completed in this city exhibits the same object under an enlargement of nine thousand million times its natural magnitude. If an ordinary domestic fly could be seen entire under such magnification, it would seem to cover a space as large as the whole city of New York below Wall street. A man would appear more than a hundred miles high; and a lady's hair would reach half way from New York to New Haven.

This wonderful instrument is so sensitive that a loud word spoken near it detective that a loud word spoken near it detstroys all distinctness of vision, from the tremor imparted to it by the motion of the air, and a footstep on the floor shakes it out of adjustment. The field of view—that is, the area which can be seen at once—is a circle only the one twelve-thousandth of an inch in diameter, but it appears to the eye to be eight inches in diameter. A microscopic shell called an angulatum, of which about one hundred and forty placed end to end will reach an inch, and which is simply marked with lines of the most exquisite delicacy, when examined under ordinarily powerful microscopes, exhibits under the new instrument half globes of white silex, whose diameters appear to be an inch and three-quarters, and of which only fifteen can be seen at once. In reality, the point of a cambric needle is larger than the circle upon which those fifteen half globes exist, and yet that circle appears like a dessert plate covered with lady apples. These wonders we have seen, but how they are produced only men of science can fully explain and understand.—*N. Y. Sun*, 13th.

MORNING SESSION.

WEDNESDAY, ATLANTA, June 22, 1870.

No. 20. Chattahoochee Circuit, taken up yesterday, was, upon petition of plaintiff in error, transferred to Circuit Court of the United States, at Savannah, upon the condition that if that Court fail to take jurisdiction of it, the judgment of the Supreme Court stand affirmed.

No. 21 is Jas. Rankin, executor, et al., vs. Geo. Anderson, et al. Equity, from Muscogee.

Peabody & Brannon, Smith and Alexander, for plaintiff in error.

R. J. Moses, Wm. Dougherty, for defendants.

It was dismissed, because the record was not certified and because the evidence was not set out in the bill of exceptions as required by 10th rule of this Court.

No. 22 is G. W. Martin and Robert M. Simpson vs. Jesse Wall. Motion for new trial from Muscogee.

Blandford & Thornton, for plaintiff in error.

H. L. Benning, Russell, for defendant.

Pending the argument for defendant in error, Court adjourned till 3 o'clock, P. M.

Personal.

Gov. Smith, of Alabama, was at the Burns House yesterday.

Mr. J. T. McEwen, Elder Sniffles, now of Kingston, is now in the city, as is also Mr. Hugh Martin, of the same place.

Col. John Baxter, of Knoxville, and Mr. A. J. Ricks, of the Knoxville Chronicle, are in the city, in attendance upon the Law Court.

Mr. Henry, of the Grierieville Furnaces, is in the city. His is the only furnace in the United States which makes *spiezel eisen*. His iron contains nearly 7 per cent. of manganese.

We cannot forbear noticing the youthful appearance of his honor, Judge Adams, who appeared at court yesterday with jet black whiskers, looking twenty years younger than when he was last here. Either the hope of a re-election, or the felicities of married life, have had a great effect upon him. He has been growing younger in appearance for the last two years. We should not now take him to be over thirty-five years old.—*Chattanooga Times.*

☞ A German telegraph operator has discovered a mode of sharpening, with mathematical accuracy, any number of steel or iron wires, by the agency of the magnetic current. The discovery may be applied to the manufacture of pins and needles, and do away the present process of grinding the points, so injurious and extensively fatal to the workman.

☞ Upon the marriage of one of her companions, a little girl about 11 years of age of the same school, said to her parents: "Why, don't you think Amelia is married, and she hasn't gone through fractions yet?"

☞ Mr. Bierstadt has lately finished several California views, which are widely different in treatment from his former paintings. They are much smaller and more highly finished.

☞ The New York World says: "A funny misprint occurred in our note on Lord Waterford yesterday, the adjective "gouty" being applied to that nobleman instead of "young."

☞ A Western Judge, while bathing in the river lately, was robbed by boys of all his clothing except a silk hat and umbrella, in which attire he had to make his way home.

☞ Swinburne has issued a collection called "Songs before Sunrise." A wit suggests that "We won't go home till morning" should be among them.

GENERAL FORREST.—It is understood that General Forrest obtained a subscription of $500,000, on a recent visit to Memphis, for the furtherance of the Memphis and Selma Railroad.

Washington News.

WASHINGTON, June 22.—Woods, the Congressional captive, has safely returned to the Capitol.

The Gulf mail route, heretofore running from New Orleans via the eastern gulf and Key West to Havana, will be re-let on the 26th of June for four years.

The Postmaster has the discretion of accepting proposals making either Mobile or New Orleans the initial point of the line.

The bidder most likely to secure the contract is J. K. Roberts, of Florida, who, it is understood, prefers to make Mobile the initial point.

Congressional.

Insurance companies, merchants and others, petition for better security against steam vessels by the use of the improved steam gauges.

A bill authorizing a bridge over the Missouri river at Omaha, of 300 feet span, was passed.

The Committee on Ways and Means reported a bill regulating the collection of internal Revenue, and reducing the force in proportion to the reduction of the revenue.

The Senate is engaged in discussing the rules.

RICHMOND, June 22.—The Commercial Convention met at Montgomery, White Sulphur Springs, to-day. The cities of Richmond, Norfolk, Petersburg, Lynchburg, Farmville, Abingdon, Bristol and Knoxville, being represented. Resolutions were adopted, advocating more perfect commercial communication between the Southwest and the cities named, protesting against discrimination against any of them, and inviting merchants and planters in Georgia, Mississippi, Alabama and Tennessee to cotize the same object under an enlargement of nine thousand million times its natural magnitude. If an ordinary domestic fly could be seen entire under such magnification, it would seem to cover a space as large as the whole city of New York below Wall street. A man would appear more than a hundred miles high; and a lady's hair would reach half way from New York to New Haven.

"BAD BLOOD."

"The Life is the Blood."

FROM it we derive our strength, beauty, and mental capabilities. It is the centre of our being, around which revolves all that makes existence happy. When this source is corrupted the painful effects are visible in many shapes, prominent among which is

SCROFULA.

This is a taint or infection of the human organism, and probably no one is wholly free from it. It exhibits itself in various shapes—as Ulcers and Sores, Decayed Bones, Diseased Scalp, Sore Eyes, Weak and Diseased Joints, St. Vitus' Dance, Foul Discharges from the Nostrils, Eruptions, Glandular Swellings, Throat Affections, Rheumatism, Heart Affections, Nervous Disorders, Barrenness, Disorders of the Womb, Dropsy, Syphilitic Affions, Liver Complaint, Salt Rheum, Dyspepsia, Neuralgia, Loss of Manhood and General Debility.

It has been the custom to treat these diseases with Mercury and other Mineral substances, which, though sometimes producing a cure, often prove injurious and entails misery in after life. The long known injurious properties of these so called alteratives and purifiers has led the philanthropical man of science to explore the arcana of nature, the result of which has been the discovery of a vegetable product which possess the power of eradicating these Taints from the Blood.

DR. TUTT'S

COMPOUND EXTRACT OF

SARSAPARILLA AND QUEEN'S DELIGHT

Is the acknowledged antidote to all Blood Diseases By its use the afflictions above enumerated can be permanently banished, and the Source and Centres of Life—the Blood, be maintained in all its purity and vigor.

For Diseases produced by the use of Mercury, and for Syphilis, with its train of evils, this compound is the only sure antidote.

BRANTLEY'S VERMIFUGE.

WHY is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, can not be too observing of the first *symptoms of worms*; for so surely as they exist, can they be safely and certainly removed from the most Delicate Infant, by the timely use of

B. A. Fahnestock's Vermifuge.

It is perfectly harmless, confains no Mercury, being a purely Vegetable Composition, and may be administered with the utmost safety to children of all ages.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

CAUTION.

Should occasion require you to purchase B. A. Fahnestock's Vermifuge, be particularly careful too see that the initials are B. A. This is the article that has been so

Favorably Known Since 1829,

And purchasers must insist on having it, if they do not wish to have an invitation forced upon them.

THE WORLD'S WONDER.

DR. ABBETT'S ANTI-DYSPEPTIC

—OR—

LIVER MEDICINE

A SAFE and certain cure for all kinds of Liver Complaints, and all diseases and indispositions that originate from a diseased state or inactivity of the Liver, such as

Chronic and Acute Inflammations of the Liver,

Dyspepsia, Sick Headache,

Sourness of the Stomach,

Loss of Appetite,

Lowliness of Spirits, Colic,

Costiveness, Fever, Ague,

Bilious Fever, Dropsy and Jaundice.

These Medicines are purely Vegetable, and perfectly harmless; but their efficacy is too permanently established in all the Southern and Western States to require any further recommendations; the wise will not fail to give them a fair trial—this is all that is asked.

LAGRANGE, GA., DEC. 8, 1869.

MESSRS. CRAWFORD & WALKER, West Point, Ga. Gentlemen: Having witnessed almost daily, for the last fifteen years, the great efficacy of the preparation you are now putting up, known as "Abbett's Medicine," it affords me pleasure to state that I know of no combinations or preparation equal to it in the treatment of Liver Diseases of whatever character, and would cordially recommend it to all who are suffering from derangement of the Liver, and especially the Dyspeptic.

I am, very respectfully,
T. S. BRADFIELD, Druggist.

WEST POINT, GA., OCT. 15, 1869.

MESSRS. CRAWFORD & WALKER: Gentlemen—I can honestly and confidently recommend L. B. Abbett's Liver or Dyspeptic

BY W. A. HEMPHILL & CO.

I. W. AVERY, Editor.

Morning Edition.

Atlanta, Georgia, June 23, 1870.

☞ In New York city the question is, whether street travel in railroads shall be above or under ground.

☞ It is a remarkable fact that few railroad companies now publish to the world their earnings.

☞ The New York Commercial Bulletin says that there is a redundancy of currency that cannot be kept in circulation. If so, why do not the owners thereof send some of it down to Georgia where it will readily command more than legal interest.

The Gag-Law in Ireland.

Monarchical governments find it difficult to repress the public utterance of thought on religious or political subjects. A correspondent of the New York Herald has recently been arrested in Ireland on account of political articles published in that paper which found their way back to the "Green Isle." What is the world coming to? The old feudal masters across the water must hate the telegraph, the steamship and railroads.

National Banks.

The free banking law, which is now in vogue, and known as the National Banking system, is only a combination of brokers' shops. To call them banks is a misnomer. The foundation of their credit is the public debt. Their franchises are such that upon the capital actually invested they reap a profit of from forty to eighty per cent.

Being denominated Banks, they receive deposits. If they accommodate the legitimate commerce of the people, it is on the same terms a street broker would do it.

The deposits received, except only so much funds as are needed to meet the daily checks of customers, are employed in the same way a money or stock-broker would employ his capital.

For every one hundred thousand dollars of bonds deposited with the Treasurer of the United States, from 80 to 90 per cent. of Bank (or so-called National) currency is issued. The deposited bonds are held as security for the redemption of the circulation issued.

Institutions engaged in legitimate banking discount real transaction notes and bills of exchange based upon the existence of produce, or other commodities or money *in transitu* to or actually in the hands of the drawee. Yet, to how many of the so-called National Banks can a party wishing to forward produce to distant markets successfully apply for the discount of a bill of exchange, for whose security a bill of lading properly attested and signed is tendered? To none except those which are agencies of some factor or factors, who have deposited the currency with which to cash the bills of exchange presented to them on condtion that the produce shall be sent to the factor or factors whose money is in hand.

Under the present banking system, instead of the cotton, tobacco and other gold-bearing products taking a legitimate direction to the markets of the world, they are diverted through routes and to great commercial marts far off of the direct channel of legitimate trade.

Raw material ought to be sent on the most direct routes to the market where it is consumed.

Now, take the single article of cotton, in which Georgia is so much interested. Before the war a bale of it was always worth at the gin-house its gold value in a bill of exchange. The banks were then able and willing to make the profits that accrued from purchasing bills based upon the actual shipment of cotton, whether the exchange was above or below par. They were able and willing to furnish the means to move forward the crop of cotton, be it small or large. How is it now?

To move forward a crop of cotton, the process is as above stated. The factor makes a deposit currency, shipped often by express at a heavy expense to a point near or at the place where the cotton first passes from the hands of the producer. He purchases through an agent, cashes bills drawn upon himself through an agent, and charges for the exchange the market price. These charges come out of the hand of the producer at last.

But more: the very accommodating factor or commission merchant in New York or elsewhere, (but generally now New York) makes it a condition precedent upon all the above that the cotton purchased with his money shall be sent to his house, where commissions for selling, charges for storage and weighing are made, to say nothing of stealage, which is always greater the further the produce gets from home. All the above charges are against the producer's side of the balance sheet, in addition to the unnecessary freight paid by carrying the cotton to market by a circuitous route.

These facts are worth remembering, and will come up when the issues are made up between the party of the people and that of the monopolists.

Railroads.

California has now 690 miles of railroad, and confidently expects to build 150 more this year.

With a business yielding over a million dollars in gross receipts, the Western and Atlantic Railroad of Georgia is actually in debt $40,000.

The name of Eufaula, Opelika, Oxford, and Guntersville Railroad has, under a statute law of that State, been changed by the corporators to East Alabama and Cincinnati Railroad.

The Texas and New Orleans Road, from this time forward, will run its cars to West Liberty, which is at the edge of the Trinity Bottom, six miles this side of the town of Liberty, which is on the eastern bank of the Trinity.

In the celebrated Jackson Railroad case in New Orleans, Judge Dibble has decided that the election of McComb and party, as directors of the road on the 25th of April, was legal and binding; that McComb and party are consequently duly elected directors, and that General Beauregard et al. are usurpers.

Large bodies of hands are at work at several points on the New Orleans and Chattanooga Railroad, between Algiers and Donaldsonville, where the road will cross the Lafourche. The contract is made to have the cars running by the 15th of December. On the river they are playing wild with the plantations by employing all their hands. We heard of several large plantations left without laborers to complete the cultivation of their crops.

DECISIONS
—OF THE—
SUPREME COURT OF GEORGIA

Delivered at Atlanta, Tuesday, June 21.

[REPORTED EXPRESSLY FOR THE CONSTITUTION, BY R. J. HAMMOND, SUPREME COURT REPORTER.]

WARNER, J. dissenting.

This is an action brought by the plaintiff against the Ordinary of Chattahoochee county, to recover damages alleged to have been sustained in consequence of the bad and unsafe condition of a bridge on a public road in said county. There was a general demurrer to the plaintiff's declaration, which was sustained by the Court below, and the plaintiff excepted. The Inferior Courts of this State having been abolished by the Constitution of 1868, and the duties of the Justices thereof having been transferred to the Ordinary of the respective counties, the question is, what were the duties and liabilities of the Justices of the Inferior Courts of the respective counties of this State, under the present existing laws thereof, in relation to keeping in good repair the public roads and bridges, which have been transferred to the Ordinaries of the several counties. The 1679th section of the Code declares, "that every corporation sets through its officers, and is responsible for the acts of such officers in the sphere of their appropriate duties." The 525th section of the Code declares, that "every county which has been, or may be established in this State, is a body corporate, with power to sue or be sued in any court." The 526th section declares that "suits against a county must be against the Inferior Court." By the 710th section of the Code, the Justices of the Inferior Court of the several counties have authority "to appoint the plans for the erection of public bridges, and to make suitable provision for their erection and *repairs*, by letting them out to the lowest bidder, hiring hands, or in any other way that may be for the public good and agreeby to law, and to require sufficient bond and good security for the faithful performance of such work and contracts, and to indemnify for all damages occasioned by a failure so to do." The 731st section provides that all contractors for the establishment of bridges shall be liable for such damages as may accrue from a want of good faith in performing their several contracts; and that, if no bond or sufficient guarantee has been taken by the Justices of the Inferior Court, that the county is also liable for the damages. The 242d section of the Code declares that the private property of the citizens of a county shall not be bound by any judgment obtained against the county, but such judgment, if binding, shall be satisfied from money raised by lawful taxation. The 5545th section provides that if the Grand Jury shall fail or refuse to recommend the levy of a lawful tax sufficient to discharge any judgment that may have been obtained against the county, or any debt for the payment whereof there is a *mandamus*, or the necessary current expenses of the year, the Justices of the Inferior Court may levy the necessary tax without such recommendation. The 547th section delares that the right of a creditor of a county to compel such tax levied is the same as set forth in section 537 touching tax for building, which last named section provides for an application to the Judge of the Superior Court for a *mandamus*.

By the 710th section of the Code, it is made the duty of the Justices of the Inferior Court to exercise a general supervision over the bridges of the county, and see that they are kept in proper order:

Held, That whatever may have been the common law rule, as to the liability of counties to be sued for damages for neglect of duty imposed by law on the officers thereof, that, under the general provisions of the Code, before recited, suit may now be brought against them as corporations, and are responsible as such corporations, for the acts of their officers, either of omission or commission, in the sphere of the appropriate duties as required by law, in the same manner as the officers of any other corporations, and that the judgment which the plaintiff may recover, will be rendered against the county in its corporate capacity, and is to be paid by the levy of a tax on the citizens of the county as provided by the Code:

Held, also, That inasmuch as the contractors to build public bridges in the respective counties, are required by law to give bond and good security to indemnify for all damages for their failure to erect, and keep in good repair, such public bridges, that the legal presumption is, that the county is indemnified against ultimate loss, should a recovery be held in this case against the county. In my judgment, the dismissal of the plaintiff's action in the court below, on a general demurrer thereto, was error.

Peabody and Brannon, for plaintiff in error.

No appearance for defendant.

Jacob M. Gay vs. Benjamin J. Peacock, Benjamin Peacock, et al. Equity from Schley.

McCAY, J.

1. Where P. had advanced money to B. and C., one of whom was P.'s son, to buy a tract of land with the understanding that the title was to be taken in P.'s name, and B. and C. bought the land, and had the title made to P., but having diverted a part of the money to other purposes, they engaged to give the vendor their note with security for the part left unpaid, and subsequently after the deed to P. was duly recorded, they procured, by false pretenses, to become their surety on said note, they telling him the land was bound for the debt:

Held, That these facts did not furnish evidence to justisfy the inference that P. was engaged in the fraud, only so as to authorize in the complaint of allowing the land to be sold for the payment of the note.

2. Under section 3429 of the Code, either the plaintiff or defendant may, as a matter of right, amend his pleadings at any stage of the cause, and the fact that the case is before the jury and part of the argument had, on the evidence, does not render it too late to amend. If, however, the amendment be immaterial, and he refused by the Judge, the refusal is not a ground for a new trial.

3. Parties in the final trial have thirty days after the adjournment of the Court to except to the decisions made on the trial, and they are not concluded if, on inquiry by the Judge, during the trial, they fail to answer or say they are content with his rulings, but such a request or demand by the Court is no ground for a new trial, unless it appear that the conduct of the Judge was calculated to prejudice the case before the jury.

Hiram Tison, et al. vs. Stephen A. Sellers. Arbitration from Schley.

McCAY, J.

Where there is a suit pending in any Court of this State, the parties may, under a rule of the Court or by agreement in writing, submit the dispute to arbitration, and to any number of arbitrators, and their award may be made the judgment of the Court where the suit is pending. Error, though the proceedings have not complied literally with the provisions of title 28, chapter 1st, of the Code, since such an award is not strictly, under the system, provided by that chapter.

Judgment affirmed.

E. H. Worrill, S. H. Hawkins, for plaintiff in error.

M. H. Branford, B. Hill, for defendant.

George A. Brown vs. The State. Keeping a keno table. Muscogee.

A table, on which or over which is a hollow globe, containing balls or numbers, the drawing out of which determines which of several parties shall take a "pot," to which each has contributed, is a gaming table, under 4465th section of the Code, and one who keeps and presides at the same, that playing and betting for money may be done thereat, is guilty of keeping a gaming table.

It is not error in the Court to charge the jury as to what constitutes a gaming table, and to say to them, after charging them that they were the judges of the law and the fact, that this did not mean that they might do as they please, or might disregard the charge of the Court.

Thomas W. Grimes, Jr., Ramsey and Ramsey, for plaintiff in error.

S. J. Thornton, Solicitor General, by M. H. Blandford, for the State.

☞ The Washington correspondent of the Christian Advocate, New York—the central organ of the Northern Methodist Church—expresses the following opinion, which is not at all complimentary to the Republican majority in Congress:

Georgia is still unreconstructed, it appears; and from present indications she will remain so until the end of time, unless men rise above party and consent to become statesmen for the good of all concerned. I confess not to understand this matter fully, but it looks quite simple, aside from party bias and party aims.

Our Augusta Letter.

Correspondence Atlanta Constitution.]

AUGUSTA, June 21, 1870.

Editors Constitution: Frequent and heavy rains have visited this section. Farmers are apprehensive lest damage be sustained by growing grain, etc.

Peaches have not as yet made their appearance in our market, though the luscious fruit has gladdened the palates of neighboring growers.

Apropos, is it not a little strange that we should so long and persistently neglect establishing, on a large scale, the peach-canning business in Georgia? We sell our peaches, when plentiful, at from 75c to $1 per bushel—shipping Northward, and buy them back at 80, and even 75c per quart. Here is a fine field for some enterprising gentleman.

William E. Jackson, Esq., has been chosen President of the National Bank of Augusta, vice Wm. B. Dinsmore, resigned. Mr. Jackson retaining the Presidency of the Augusta Factory.

The Fire Department was inspected by the Mayor and Engine Committee yesterday. A more efficient, devoted and gallant department nowhere exists.

Several new steamboats, now being built at Wilmington, Delaware, for service on the "People's Daily Line," between Savannah and Augusta, will be in hand, I learn, by 1st of September next.

The Grand Jury, of last week's Superior Court, of this county, recommended that the Ordinary be authorized to borrow enough money to pay the teachers of public schools amounts due them up to July 1st, proximo. This is a move in the right direction.

The Augusta Cenotaph Club, organized with a view to raise funds for the purpose of erecting a cenotaph to the memory of the young men of this city and county who were killed in battle, or died from other causes, in the Confederate service, has accumulated a sum now approximating $3,400. It is proposed either to have a splendid cenotaph erected in a prominent part of the city, or build a memorial school house. The names of each of our gallant dead will be engraved on the monument, if decided upon finally, or if the ides of the school obtains satisfactorily, marble slabs, with the names inscribed thereon, might be inserted in the walls. It is argued that the Memorial School would tend to keep the memory of our fallen braves fresh in the minds of the young people, who are the hope of the future.

Charleston has just completed her tribute to those whom she mourns, so far as regards the monumental shaft. It remains for her and all alike to unite those memories in the hearts of our little ones.

Professor Huxley, who looms up as one of the most profound thinkers and writers of Europe, took occasion, in a recent address at University College, London, to suggest certain changes in the course of study usually pursued in medical institutions. He thought that too little attention has been paid to physiology and the elements of physical science. Did not understand the necessity for such thoroughness in materia medica, on the part of a man who is to practice medicine than for surgeon to be drilled in the manufacture of cutlery because he will use the knife. In his judgment, physiology, chemistry applied to physiology, anatomy, surgery, obstetrics, hygiene, and medical jurisprudence should receive most attention.

Washington News.

WASHINGTON, June 22.—The Judiciary Committee of the Senate will report favorably upon Akerman's nomination to the Attorney-Generalship, but will oppose action until Akerman's arrival here. Akerman is expected every day.

Revenue receipts to-day $130,000.

Boutwell orders all persons excluded from the money rooms of the Treasury, except bearers of his orders.

Internal revenue receipts for the present fiscal year will reach $180,000,000. This is a great excess over previous years and Boutwell's estimates for the current month.

Cotton growers seem determined this year to reduce the price to 15 cents, with a fair prospect of success. The acreage is materially increased in every State, while that of wheat, and probably of corn, though the country estimates for the entire country do not come in until July 1, has decreased. If the neglect of all other interests can only be cured by cheap cotton, the sooner the reduction comes the better. The condition of the growing crop in North Carolina is good; in South Carolina cotton is looking well, except that some complaint of bad stands is made; in Georgia it is later and smaller than usual from the effects of a drought of five weeks, which terminated May 25th, but is growing vigorously now. The dry term was shorter in Florida and Alabama, and cotton is generally in good condition. Reports from Mississippi are still more favorable. In Tensas Parish, Louisiana, where the greatest cotton yield of 1869 was made, the condition of crops is twenty per cent. better than last year, and acreage is increased one-fifth. From Texas come reports of a backward spring, with cotton late but thrifty and promising, and no State makes more favorable returns than Arkansas; the average condition of cotton is better than last year at this time, a fact desirable and gratifying within itself, but of no controling force in determining the ultimate result. Last season was unpropitious to August, afterwards favorable to an almost unexampled degree. A tenth of the crop being due to the extreme length and propitious character of the autumnal season. The average of Sea Island Cotton in Texas has increased.

The Commissioner of Internal Revenue has issued regulations regarding distillation from fruit, greatly reducing the burdens of that branch of industry. They are quite lengthy.

Congressional.

In the Senate a bill was reported authorizing the erection of a cable to Burmudas; also to facilitate telegraphic communication with Belgium.

The Tax bill was then taken up, with a sharp contest over the income tax, Sumner and Conkling arguing for the abolition of the income tax. The matter was finally postponed until other amendments were disposed of, and all adopted, when the matter was postponed to Thursday.

The Senate is in session to-night on the Southern Pacific Railroad bill.

The House bill allowing Massachusetts over a half million interest on the war of 1812 was amended to the effect that this payment shall close the account, and passed by a vote of 101 to 61.

The President's veto of the bill to extend the patent for Smith & Wesson's pistols was sustained by a vote of 12 to 186.

During the discussion there were several collisions occurred between Farnsworth and Butler.

Farnsworth showed that Butler had received two thousand dollars as attorney for parties desiring extension.

Butler made the retort that Farnsworth had more beard than brains.

Farnsworth replied, whether long or short, no member should steal under the shadow of his beard, if he knew it.

Mutual and lengthy denunciations followed.

The Apportion bill discussed to adjournment.

ST. LOUIS, June 22.—About fifty Chinese have arrived for New Orleans.

Late letters from the plains report that nearly all the young Indians belonging to the Arapahoes and Cheyennes and the tribes below the Arkansas river are on the war path. Several trains have been captured and a number of white men killed. It is very dangerous for trains, mail parties, or anybody else, to travel below Fort Dodge.

AUGUSTA, June 22.—Cotton crop accounts unfavorable—too much rain.

ZURICH, June 22.—The Neufchatel Council voted, by a large majority, in favor of the separation of Church and State.

PARIS, June 22.—The trial of the members of the International Workmen's Society commenced to-day. Thirty-eight members are arraigned. Nothing new has transpired.

The Catoosa Springs.

THIS well-known popular place will be open for the reception of visitors, June 20th, 1870. The Proprietor will endeavor to make it a pleasant place to all who may favor him with their patronage. There is a great variety of water at this place; about 50 Springs on two acres of land.

The curative and healing qualities of those waters are well known to be equal to any in the world. They are situated in Catoosa County, Ga., about seven miles from the Tennessee Line, two miles north of the W. and A. R., four miles from Ringgold, five and a half from Tunnel Hill. Passengers can get off of the cars as either of the last named places, where they will find accommodating Landlords and Ladies to stop with, and conveyance to the Springs. There will be a regular line of Coaches and a Baggage Wagon from Tunnel Hill to the Springs. Persons wishing Board had best notify the Proprietor by letter.

My Post-office will be Tunnel Hill, Ga.

The Daily Constitution.

Atlanta, Georgia, June 23, 1870.

THE days are now growing "smaller by degrees and beautifully less" every day.

WORK on the Union Passenger Depot will be completed in a few days.

SPRING chickens are somewhat larger this year than spring lizards.

IMPORTANT mineral discoveries are being made along the line of the Air-Line Railroad.

THE Masonic fraternity of Atlanta will soon occupy the most comfortable and elegant lodge rooms in the South, at the corner of Broad and Marietta streets.

W. E. TRUNDLE, of Charlestown, Jefferson county, Virginia, wishes to secure a situation as private tutor or teacher in a private school. Address him at that office.

A HORSE belonging to Captain Archer ran away with a buggy yesterday afternoon, on Alabama street. No one was in the buggy at the time. The buggy was damaged considerably.

REAL ESTATE has advanced in Atlanta since the awarding of the contract for the Union Passenger Depot. Now, get water-works and real estate will improve and the rates of insurance decrease.

CHARLIE HERBST, the Librarian of the Young Men's Library Association, left yesterday morning, for a brief visit to his native State, Kentucky. During his absence, A. L. Grant, Esq., will have charge of the Library.

THE false alarm of fire at 12 o'clock yesterday was caused by some of the workmen on some of the tall buildings raising a shout of joy as the dinner hour arrived.

"WIFE BEATING."—S. W. Wells, a discharged soldier, was arraigned before Justice Spencer yesterday on the charge of beating his wife—a "female citizen"—and being adjudged guilty, was fined $20 and costs, or one month's imprisonment in jail.

BELL & HAMMOCK and Wallace & Fowler have a joint sale of houses and lots and residence lots, on Windsor and Rawson streets this afternoon. Wallace & Fowler will sell, also, Meador & Brother's new ten room dwelling house at the close of the sale.

ALTERCATION.—A difficulty occurred last night, at the Varieties, between Captain Whit Anderson and Bailiff Holmes. The latter received a severe blow on the head, which caused the blood to flow freely. The origin and particulars of the difficulty we did not learn.

MR. BILLY G. OATSAND family were detected, last night, in committing depredations in the flower garden of General Anderson, in front of the Georgia Freight depot, but succeeded in making their escape. The police are on their track.

CONSIGNEES PER MACON AND WESTERN RAILROAD, JUNE 22, 1870.—W A Fuller; D Fechter; F M Kenney; L Nathan; J R Wylie; Morris & Bro; Moore & Marsh; G W Price; H Banks & Son; W H Brotherton; H Franklin; S A Echols; Glenn & Wright; M E Kenney; A B Howard; G W Walker; Rondeau & Co; B F Wyl; C L Loyd & Co; J Boyle; Chamberlain, B & Co; Wm Erskine & Co; McBride & Co; J H Gaven; Charles Brown; W A Staymaker; McNaught & Co.

AN old citizen of Griffin informs us that "I. Golly," the waggish correspondent of the Macon Telegraph, is mistaken in asserting that the people of Griffin all run to the trains to beg for a "chaw" of tobacco. They come down to the train to see how many of the Maconites are fleeing from the musquitoes. "I. Golly" ought not to get in a huff with Griffin because she is working so energetically to get Mercer. The Griffinians are indeed Mercer-nary, but Griffin has sold men and good to back her (tobacco.)

WHEN the subject of building the new Passenger Depot was being discussed by a crowd of railroad men, a railroad President said that he favored building a strong and substantial depot, but he did not want any gingerbread work on it. A bachelor of some seven——ty years said with much *naiveté*, that he liked to see fancy work on it, for when he got married (and he might take a notion to do so soon) he intended to wed a fine looking woman, and one that wore fine clothes! Bully for him!

JUDGE SMITH had an interesting case before him yesterday. It was an action against a constable on his bond, for damages in failing to levy an attachment. The counsel for the defendant contended that Justices' or Notary Public's Courts had no jurisdiction in cases sounding damages, like the case at bar; but the point was overruled. He further contended that if the Court had jurisdiction in action for damages, it had no jurisdiction in this case, as the amount of the bond was $200, and being an action of debt, the whole paper must be declared upon; and that the constable's bond had to be sued upon in the Superior court. Judge Smith sustained the points and dismissed the case. M. J. Clarke for plaintiff; T. P. Westmoreland for defendant. We learn that probably a *certiorari* will be taken in the case.

LIFE OF CHARLES DICKENS—By Dr. R. Shelton Mackenzie, with Papers, Recollections, Anecdotes and Letters, by "Boz," never before collected. T. B. Peterson & Brothers, No. 306 Chestnut street, Philadelphia, have in press, for immediate publication, The Life of Charles Dickens. It will contain, beside a full history of his life, his Uncollected Pieces, in Prose and Verse; Recollections and Anecdotes, as well as Letters never before published; and will trace the entire career of the great Novelist from the time of his birth and first connection with journalism as a reporter to its unexpected and lamented termination on the 9th of June, 1870. By Dr. R. Shelton Mackenzie. The whole will be issued in a large duodecimo volume, bound in cloth, uniform with "Peterson's" various editions of "The Complete Works of Charles Dickens." Price, $1 50. Agents wanted every where to engage in its sale. Advance copies will be sent to any one on receipt of price.

HARVARD UNIVERSITY.—The Boston Advertiser says that the graduating class in Harvard University will be larger than any one in the past. In addition to the regular lectures, the students have several clubs among themselves, where legal points are mooted and decided. There is also connected with the school a parliament, which is designed to make the future members of the legal profession familiar with parliamentary usage and debate. In this body the live questions of the day are discussed. The constitutionality of the Georgia bill, now before Congress, was the last for consideration. Prominent among the many able speeches made during the argument were those of Messrs. Brown, (son of ex-Governor Brown) of Georgia; Gambull, (son of ex-Governor Gambull) of Missouri; Fessenden, (nephew of the Hon. William Pitt Fessenden) Connecticut, and Bosworth, of Massachusetts. The argument of each one of those gentlemen possessed decided merit, and displayed a thorough knowledge of the subject.

WESTERN AND ATLANTIC RAILROAD } INVESTIGATING COMMITTEE, } WEDNESDAY, June 22, 1870.

The committee met. The Journal of yesterday was read and approved.

Mr. B. F. Moore re-appeared—Says that the account opened by order of Walker with J. M. Born & Co. was by an understanding between the East Tennessee and Georgia, and Western and Atlantic and the connecting roads, that the charges were to be held up until the coal trade would open.

Witness says his statements as submitted are correct as taken from the books; says:

For six months from 30th September, 1869, to March 31st, 1870, the gross earnings were	$816,141 09
Expenditures	713,527 91
Net earnings six months	$102,619 18
Paid State Treasurer	45,000 00
Balance	$ 57,619 18

Which witness says is in the hands of agents and connecting roads who have not settled up by the first of the month, but which should appear in the succeeding month.

Witness says the two steamboats, Mary Byrd and Resaca

Originally cost	$21,000 00
Paid old liens against them	3,401 68
Expenses running them	7,432 15

The Committee adjourned until 9 o'clock, A. M., to-morrow.

SUPREME COURT—*Evening Session*—ATLANTA, GA., June 22, 1870.—Before resuming the argument in No. 22, Chattahoochee Circuit, the following cases were withdrawn. (They had been sent in too late):

No. 23, Charles DuBignon vs. Robert M. Gimby, administrator. Complaint from Muscogee.

R. J. Moses for plaintiff in error.
H. L. Benning for defendant.

No. 25, Tomlinson F. Rose, ex'r, vs. Stephen Pace. Assumpsit from Muscogee.

L. T. Downing for plaintiff in error.
Ingram & Crawford for defendant.

No. 26, Wm. W. Gerrard, executor, vs. Dellingham & Denson. Complaint from Muscogee.

L. T. Downing for plaintiff in error.
R. J. Moses for defendant.

No. 32, A. C. Morrison, et al. vs Wm. S. White. Complaint from Muscogee.

Benning, Beanford, Thornton, for plaintiff in error.
Ingram & Crawford for defendant.

No. 35, John W. Brown vs. John Peabody. Debt from Muscogee.

H. L. Benning for plaintiff in error.
Peabody & Brannon for defendant.

No. 36, L. Z. Steinheimer vs. Isaac Coleman. Illegality from Muscogee.

R. J. Moses for plaintiff in error.
H. L. Benning for defendant.
Argument was concluded in No. 22.

No. 24 is T. C. Pudgen vs. John W. Dear. Garnishment from Muscogee.

R. J. Moses for plaintiff in error.
Peabody & Brannon for defendant.
It was dismissed because evidence was not embodied in bill of exceptions.

No. 27 was argued. It is L. E. Hoops vs. Atkins, Dunham & Co. Assumpsit from Muscogee.

R. J. Moses for plaintiff in error.
Peabody & Brannon for defendant.

THE KNABE PIANOS.—The Messrs. Knabe, of Baltimore, Maryland, whose widely-known Pianos are so extensively used in the South, where they take precedence of all others, have carried off, during the past season, their usual share of premiums. And it must be confessed that their share is the "lion's share;" for, wherever the Knabe Pianos have been exhibited, they have never failed to take precedence of all competitors. At the late Louisiana State Fair, held in New Orleans, the committee on musical instruments awarded the first premiums to the Grand, Square, and Upright Knabe Pianos—a triple victory. The excellence of the Knabe Pianos is due to the fact that the Messrs Knabe employ an immense capital, enabling them to keep on hand a large stock of the best material; that the members of the firm were brought up to a practical knowledge of the business, and personally superintend every detail of manufacture; and, further, that they are constantly making improvements in the Piano, of which the firm holds patents. In this way has their present immense business been built up; and their factory is now turning out no less than forty-five Pianos per week, which hardly supplies the demand. Messrs. Phillips, Crew and Freyer are sole agents for the sale of the Knabe Pianos in Atlanta.

KOSKOO.—This medicine is rapidly gaining the confidence of the people, and the numerous testimonials of its virtues, given by practitioners of medicine, leaves no doubt that it is a safe and reliable remedy for impurity of the blood, liver disease, etc.

The last Medical Journal contains an article from Prof. R. S. Newton, M. D., President of the E. Medical College, city of New York, that speaks in high terms of its curative properties, and gives a special recommendation of Koskoo to the practitioners of medicine. This is, we believe, the first instance where such medicines have been officially endorsed by the Faculty of any of the medical colleges, and reflects great credit upon the skill of Dr. Lawrence, its compounder, and also puts "Koskoo" in the van of all other medicines of the present day. feb26-d&w6m

THE LIVING MACHINE.—Injure the main spring of a watch, and every portion of the works become disordered. The human stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs, and controls, to a certain extent, the whole living machine. The comparison may be carried further, for as the weakness or other imperfections of the main spring is indicated on the face of the time-piece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded, the eyes are deficient in lustre and intelligence, and there is a worn, anxious expression in the whole countenance which tell as plainly as written words could do, that the *great nourishing organ* whose office it is to minister to the wants of the body, and to sustain and renew all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be *the one thing needful*. The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the resources of the pharmacopeia have been exhausted, without, at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful, stomachic effects a perfect and permanent cure. In all cases of dyspepsia the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular distinctness, regulating and re-invigorating every secretive and assimilating organ on which bodily and mental health depends.

UNIVERSAL LIFE INS. CO.

—NEW YORK—

The Original Joint-Stock Life Ins. Co. of the United States.

The business of this Company is EXCLUSIVELY confined to the Insurance of first class healthy lives.

THE DISTINCTIVE FEATURE

of the *Stock* system of Life Insurance, as opposed to the *Mutual*, is a low rate of premium for a stated sum insured, which is IMMEDIATE, REGULAR and CERTAIN; in lieu of a high rate of premium with a promised dividend, which is DISTANT, CONTINGENT and UNCERTAIN; this so-called dividend being merely a return of a *portion* of the excessive and unnecessary premium charged in the first instance

ILLUSTRATION.

Suppose that an individual aged thirty desires to devote $200 a year for the purpose of effecting an insurance on his life; this amount will immediately secure him in the UNIVERSAL, the sum of $11,751, payable on his decease. This sum, paid to a company charging the ordinary mutual rates, would secure him the sum of $8,474—difference, *immediately secured*, in favor of the UNIVERSAL, $3,277.

To illustrate the importance to the policy-holder of low premiums in more general terms, it may be stated that by a reduction of *twenty-five* per cent. in the rate of premium, the same amount of money will secure a policy *thirty-three and one-third* per cent. greater, and likewise that a reduction of twenty-five per cent. in the rate of premium is precisely equivalent to an *annual cash dividend of thirty-three and one-third per cent. payable in advance*, or to a dividend of *forty-five per cent.* payable at the end of five years.

By the *Stock* plan the *full cash sum* of the premium is immediately secured to the insured, the Company taking all the risk. By the Mutual plan the full value in insurance of the premium paid, is not secured to the policy-holder, who takes a portion of the risk himself.

THE PREMIUMS

charged by the Universal are as low as the actual experience of insured life in this country will justify, and on the ordinary Life and Ten-Year Non-forfeiture policies are nearly one-third lower than those charged by the majority of Mutual Companies.

Special attention is asked to our "*Return Premium Plan*," by which the amount of the policy is secured simply by the temporary deposit of the annual premiums, which are *returned* in full, together with the amount assured, to the holder of the policy when it shall become a claim upon the Company. Also to the

"REDUCTION OF PREMIUM PLAN,"

by which a reduction of *one-third* is made in the premium after the first annual payment, being, in fact, equivalent to a *dividend* of 33½ per cent. A circular is inserted in the policies issued by the "Universal," in which these results are distinctly specified and guaranteed.

THE GREAT MASONIC BAND.

There lives a band of men
Whose precepts are divine;
Whose pure and worthy deeds
With growing lustre shine.
Though linked by bands of truth,
In a sacred brotherhood,
There faith has oft been tried,
And many storms withstood.

But they hold fast the banner
Of fidelity and love,
Served well their Holy Master,
The Eternal God above;
On their high path they walk,
Rejoicing in their might,
Rejoicing in united strength
Of charity and right.

And one of their Grand Order,
The prince of his proud land,
Hath nobly said their honor
Shall upheld be in his hand.
Where are those men of mark
That thus so steadfast stand?
They are found in every clime—
In the great Masonic Band.

AN ENCHANTING BLONDE.

At the last ball of the Tuileries, the "Empress' Mondays," as they are more familiarly known by, a lady from South America almost mesmerized Her Majesty by her charms. "Her beauty, even cynics avowed it"—and the ladies, best testimony of all, admitted it, Mlle. Isnagha is one of the blondest of the blondes, with eyes dark and large, and sparkling with mildness and intelligence, lips like roses, an air and grace by no means common, and a toilette, simplicity itself, and that Madame Ollivier could not surpass. Fortunate it is for the Prince Imperial, he has to go to bed at ten.

FRANCE RIVALLING CHICAGO.

Levallois is a village on the outskirts of Paris, wherein resides a family named Chabannes, who have been pretty well occupied during the past week. On Sunday, the bans of marriage were published for the daughter—Monday, the articles of marriage were signed—Tuesday, the ceremony came off—Wednesday, the bride was confined, and the little stranger baptized—Thursday, the bride's mother received the last sacraments—Friday, she expired—Saturday, was interred, and on Sunday the disconsolate husband proposed to one of his daughter's bridesmaids, and was accepted. "Is this a mad world, my masters?"

TWO CHAMBERS OF HORRORS.

A worthy tradesman had just sat down to his dinner, a few days ago, surrounded by his olive branches and the fruitful vine. Suddenly he observed before the plate of one of his little girls a drop of blood. Believing she had cut her finger, he rose to examine, and was surprised to find other drops of blood on the table-cloth. On looking towards the ceiling, the blood was found to be dropping therefrom. Calling the house porter, they forced open the door of their neighbor's room overhead, and found a young woman, having failed to destroy herself by the fumes of charcoal had opened the veins of her neck with a razor. All attempts to aid her she repelled by endeavoring to bite the assailants. She was but three weeks married, had found matrimony a sad, sour, sober beverage, and resolved to find in death

"That opiate of the soul,
Lucretia's dagger, Rosamond's bowl."

Another curious suicide occurred yesterday—that of an uncle rendered desperate by the gambling debts of his nephew. This is something like a reversing of the laws of society.

THE "FRENCH DERBY,"

Run on Sunday last, and which drew crowds, has led to no less than five suicides, up to the present, of amateur book-makers unable to appoint a settling day, and dreading to be "Weished." Gambling is very prevalent in Paris, and the Government has a special body of police charged with the suppression of the "hells." Each inspector receives a bonus of 50 francs, and the men 10 francs each, besides the chances of a stab from a poignard or a ball from a revolver for every clandestine house "seized." These establishments are generally kept by Greeks whether; from Batignalles or Marathon, is all one.

ANENT GREEKS.

There is a "liberal club" in Paris, of a cosmopolitan character, where respectable foreigners are admitted as honorary members, having been properly introduced. The following simple pleasantry is to result in a duel: Three English gentlemen were seated on a canape, chatting, when a French acquaintance of theirs, as harmless as a child, approached and cautiously whispered, "Gentlemen, disguise your nationality—there are two Greeks present." The descendants of Agamemnon did not relish the laugh at the expense of "living"—or better, killing—Greece. Hard words ensued, and ultimately an exchange of cards.

HIRSUTE BARBARIAN.

A well-known barber has petitioned the Prince Imperial to confide to him his shaving wants. Nothing like being in time. His highness is not yet in the downy stage. If, as it is said, fashion is going in for bagwigs, the Prince can remove the jealousy of the hirsute artistes by following in the footsteps of Louis the XIV, who had a staff of forty coiffeurs.

THE DEBUT OF MLLE. BOZACCHI,

as danseuse, with a new ballet at the opera, has taken the town by storm. She promises to eclipse Essler and other such lilies del'air. Like Byron, she has awakened in the morning to find herself famous. She is but eighteen years of age. Her mother is a poor struggling widow, with four other children, living in an attic, requiring ninety-six steps to reach it—but which our sylph could descend in a bound, and ascend in flying—for with birds space is the least of their cares. The evening succeeding her success, all her fellow-lodgers illuminated their windows in her honor, and serenaded her to her heart's content.

Some weeks ago, an old Roman Amphitheatre was discovered in sinking the foundations for a new depot for the omnibus company. Skeletons of Romans—it is supposed—coins and medals, were found. The antiquarians were in high feather, and have been working every oracle to purchase the site. A banquet has just taken place there, the magnesian or lime light being the illumination employed. Speeches were made, but the inhabitants around did not seem to be equal to the occasion, as they pelted the Pickwickians with turnips, onions, carrots, and other vegetable missiles.

A MURDERER EXECUTED.

Bayon, who murdered M. Lubansky, in a railway carriage, on the Marseilles railway, was executed on Thursday. He declined all the consolations of religion, and begged the chaplain to bring him coffee and cigars. Before mounting the scaffold, he said to some by-standers, mostly women and children; "You have done well to come—the show costs nothing."

When his head fell in the basket, the priest prayed over it for a quarter of an hour.

DRUNKENNESS

is on the increase in Paris, which the citizens charitably debit to the English and Americans. In St. Petersburgh, a drunkard, no matter his social position, is condemned to sweep the streets for a day. The Parisians demand this measure. Light still comes from the North.

"Aunt, why do you sit out the long sermons of that Abbe," said Niece.

"My dear," replied Aunt, "they accustom me to eternity."

Dialogue between two gamins:

"Mon Vieux, do you know why the aristocrats make their domestics wear powder?"

"To make the world believe they are old servants."

READ THE FOLLOWING CERTIFICATES. Hundreds of others could be given. See what Col. Calhoun says: When a young man, I resided in one of the malarious districts of Mississippi, and while there contracted Liver disease, from which I have suffered ever since. I have tried, I believe, all Liver Medicines, and do not hesitate to say that Dr. Ed. Smith's Liver Tonic is, by far, superior to anything I have ever tried. J. LAWRENCE CALHOUN, Norman, Ga.

Dr. E. Smith's Liver Tonic is beyond all question a most excellent Liver Medicine. Having fully tested its virtues, we take great pleasure in assuring those who may be afflicted with Torpid Liver or Constipated Bowels, that no better or safer medicine can be found. J. E. Dent & Moneghan, Rev. Geo. E. Smith, Newnan, Ga., Rev. L. F. Davies, F. E., LaGrange District, Ga.; Rev. E. P. Birch, Pastor West Point, Ga.; J. A. Hunnicutt, M. D., Athens, Ga.

A PURELY VEGETABLE COMPOUND.

DR. EDWARDS SMITH'S LIVER TONIC, A PURELY VEGETABLE COMPOUND, For Diseases of the Liver, Stomach and Bowels, Dyspepsia, Headache, Pain in the Side and Shoulder Blade, Jaundice, Sour Stomach and Indigestion, Constipated Bowels, Piles, Loss of Appetite, Nausea, Vomiting, Fever and Ague, Chills and Fever, Bilious Fever, Remittent Fever, Intermittent Fever, Chill Fever, Dumb Ague, and all Bilious Disorders.

DR. EDWARDS SMITH'S LIVER TONIC is a safe and reliable remedy for all diseases of the Liver, Stomach and Bowels, and is guaranteed to do all that is claimed for it. It is a thorough but mild purgative, and is a specific for Constipated Bowels, Piles, Sick Headache, Dyspepsia, Jaundice, Pain in the Side and Shoulder Blade, Sour Stomach and Indigestion, Fever and Ague, Chills and Fever, Bilious Fever, Remittent Fever, Intermittent Fever, Chill Fever, Dumb Ague, and all Bilious Disorders. It is a most excellent remedy for all diseases of the Liver, and will be found to be the most effectual remedy for Dyspepsia ever discovered. It is the only medicine that can be taken with perfect safety by children, as it is purely vegetable, and will not injure them in the slightest degree. It is the best medicine for females ever offered to the public, as it will relieve them of all Bilious disorders to which they are subject, and will prevent them from having Chills and Fever, Bilious Fever, Remittent Fever, Intermittent Fever, Chill Fever, Dumb Ague, and all Bilious disorders. It is a most excellent remedy for Nausea. It is a preventive of Chills and Fever, and will cure the most obstinate case in a few days. It is a most excellent remedy for Sick Headache, and will be found to be the best medicine ever offered to the public for Jaundice. It will cure Pain in the Side and Shoulder Blade in a few days. It will cure Sour Stomach and Indigestion in a few days. It will cure Piles, Swelling in the Limbs, and all Diseases of Constipated Bowels. If subject to any of the various symptoms of a Torpid Liver or Dyspepsia, Headache, Pain in the Side, Sour Stomach and Indigestion, Constipated Bowels, Piles, Loss of Appetite, Nausea, Vomiting, Fever and Ague, Chills and Fever, Bilious Fever, Remittent Fever, Intermittent Fever, Chill Fever, Dumb Ague, and all Bilious disorders, it is positively necessary that you should take a dose of DR. SWEET QUININE

IS A RECENT IMPROVEMENT.

Replaces the use of the Bitter Sulphate Quinine, with which all are familiar.

Dose for dose, it is

WARRANTED

Fully Equal in Every Way to Bitter Quinine,

And like it, is the one

Great, Positive, and Unfailing CURE

FOR ALL DISEASES OF MALARIOUS ORIGIN.

Fever and Ague,
Intermittent Fever,
Chill Fever,
Remittent Fever,
Bilious Fever,
Dumb Ague.

And the long train of disorders following these when neglected.

SWEET QUININE

is made solely from PERUVIAN BARK (so is Bitter Quinine,) therefore is of Vegetable origin, and not a Mineral Poison, but on the contrary is proved to be one of the elements found in the blood of all healthy persons.

SWEET QUININE

acts as an antidote to, as well as a cure for malarial or miasmatic poison, the absorption of which by the lungs causes Intermittent Fevers, etc. The only advantage claimed for

SWEET QUININE

over the use of old Bitter Quinine is the entire absence of that intense, persistent bitterness, which in the latter is an insurmountable obstacle to its use with most persons, and always with children.

SWEET QUININE

is in two forms—in Powder, for the use of Physicians and Druggists, and Fluid, for use in the family and for the general public.

KOSKOO!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of country

AS A GREAT AND GOOD MEDICINE!

And the Large Numbers of Testimonials

which are constantly being received from Physicians, and persons who have BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

AS A BLOOD PURIFIER,

IT HAS NO EQUAL,

BEING POSITIVELY

The Most Powerful Vegetable Alterative Yet Discovered.

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues loose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are effected with scrofula in some form.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO,

AS A

Liver Invigorator!

STANDS UNRIVALLED.

Being the only KNOWN Medicine

that EFFICIENTLY stimulates and CORRECTS the hepatic secretions and functional DERANGEMENTS of the LIVER, WITHOUT DEBILITATING the system. While it acts freely upon the Liver instead of copiously purging, it gradually changes the discharges to a perfectly natural state.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes, headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the side, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, etc.

KOSKOO!

Is a remedy of Wonderful Efficacy in the cure of diseases of the Kidneys and Bladder. In these Affections it is as near a specific as any remedy can be. It does its work kindly, silently, and surely. The Relief which it affords is both certain and perceptible.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys can not estimate the importance of their healthy actions.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with pain in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

Meets with GREAT SUCCESS in the CURE of

DISEASES OF THE NERVOUS SYSTEM,

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work (mental and physical), are causing diseases of the nervous system to increase at a fearful rate.

The symptoms to which diseases of the nervous system give rise, may be stated as follows:

A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical Headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in Answering Questions; Dullness of Hearing; Twitching of the Face and Arms, etc., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, etc., etc.

COAL!

OUR experience for the last four winters teaches us that the demand for Coal in the winter time is greater, (and will continue greater,) than the facility for transportation; therefore, we think it to the interest of consumers to lay in their supply at this season, as it saves trouble and high prices. We will deliver on the car, by the car load, SEWANEE COAL, at the following prices:

Lump Coal ..... 26 cents per bushel
Run of Mines ..... 22½ " "
Fine ..... 17½ " "

Orders left at Atlanta Ice House will be promptly filled. PULHAM & CO.
